

# Marcus CHAN

Software Engineer

Passionate Software Engineer with 3+ years of experience building scalable web applications. Expertise in full-stack development with modern technologies including React, Node.js, and cloud platforms. Proven track record of delivering high-quality solutions and leading technical initiatives.

## Professional Experience

### Company Name

Job Title

City, State/Country

Start Date - End Date

- Describe a key technical achievement with quantifiable results (e.g., improved performance by 40%)
- Highlight technologies used and problems solved (e.g., built scalable API serving 10K+ requests/day)
- Mention collaboration, leadership, or process improvements (e.g., led team of 3 developers)

### Previous Company Name

Previous Job Title

City, State/Country

Start Date - End Date

- Another technical achievement with impact metrics (e.g., reduced deployment time by 60%)
- Focus on full-stack development experience (e.g., developed end-to-end features using React & Node.js)
- Mention any mentoring, code reviews, or architectural decisions (e.g., architected microservices infrastructure)

## Featured Projects

### Project Name

Code | Demo

Tech Stack: React, Node.js, PostgreSQL, AWS

- Brief description of what the project does and its purpose
- Key technical challenges solved or features implemented
- Quantifiable results if applicable - users, performance improvements, etc.

### Second Project Name

Code | Demo

Tech Stack: Vue.js, Python/Django, MongoDB, Docker

- Another project description with technical focus
- Highlight different technologies to show versatility
- Mention any interesting algorithms, patterns, or architectures used

## Technical Skills

**Programming Languages:** JavaScript, Python, Java, TypeScript, C++

**Frontend Technologies:** React, Vue.js, Angular, HTML5, CSS3, SASS/SCSS

**Backend Technologies:** Node.js, Express.js, Django, Flask, Spring Boot

**Databases:** PostgreSQL, MongoDB, MySQL, Redis, SQLite

**Cloud & DevOps:** AWS, Docker, Kubernetes, CI/CD, Jenkins, GitHub Actions

**Tools & Other:** Git, VS Code, Postman, Figma, Agile/Scrum

# Education

---

<b>University Name</b>	City, State/Country
<i>Bachelor of Science in Computer Science</i>	Graduation Date
GPA: 3.8/4.0 (optional - include if 3.5+)	
<b>Relevant Coursework:</b> Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Computer Networks	
Dean's List, Computer Science Honor Society	

---

# Certifications & Awards

---

- AWS Certified AI Practitioner (2025)
- HashiCorp Certified: Terraform Associate (003) (2024)
- Databricks Certified Data Engineer Associate (2024)
- Cloud Digital Leader(2023)
- Certified Scrum Product Owner® (CSPO®) (2022)
- AWS Certified Cloud Practitioner (2022)
- Certified System Architect (CSA) (2021)
- ITIL® Foundation Certificate in IT Service Management (2021)
- Certified ScrumMaster® (CSM®) (2021)
- Alibaba Cloud Professional - Cloud Computing (2019)
- Alibaba Cloud Associate - Cloud Computing (2019)
